SRI K. VINAYAKAM : Sir, this stretch of land at Pulithivakkam is purely an agricultural land and the agriculturists who are engaged in this avocation are feeling the necessity of a proper seed farm and so would the Government reconsider the matter and investigate the possibility of developing that area?

THE HON. SRI M. BHAKTAVATSALAM : Opening of a seed farm is not the only method of developing the land and if agriculturists do need pure seeds, it is not necessary that seeds farms should be located just adjacent to their lands. Seeds would be supplied to those who need it.
